PROFESSIONAL PROFILE:

I am a hardworking results-driven programmer and web developer. I have been coding for the last three years. My coding journey has been consistent. For three years I have been doing extensive research on software development and continuous learning too, I have also managed to do several projects, most of which I have developed from scratch and got featured in some others. I have gained and perfected critical coding skills such as writing clean and reusable code, bug fixing, testing and maintaining code. I have also managed to gather knowledge to solve the basic programming challenges such as:

1. Code integration
2. Bug fixing
3. Project management
4. Data security
5. Deployment
6. Performance optimization in systems
